

The logo for NORCHEM, featuring the word "NORCHEM" in a bold, sans-serif font. The "NO" is white, and "RCH" is yellow, while "EM" is white. A registered trademark symbol (®) is located to the upper right of the "M".

NORCHEM[®]

GROUP OF COMPANIES

may 2022

**The leading Russian
producer of surfactants**

NORCHEM Group of Companies

NORCHEM Group is the leading Russian manufacturer of surfactants, polyethylene glycols (PEG) and special chemistry under trademark **NORCHEM®**.

Currently **NORCHEM** has three production sites in the Russian Federation (Leningrad and Nizhny Novgorod region) and is developing dynamically in the fields of cosmetics and household chemistry, construction-, oilfield- and agro-chemistry.

NORCHEM Production Capacities

Total Capacity 2021	
Sulphonation	70 KTPA
Ethoxylation	65 KTPA
Multi-Purpose Unit	15 KTPA
Special chemistry	30 KTPA
TOTAL	180 KTPA

Zavod sintanolov LLC

Dzerzhinsk, Nizhny Novgorod region, Russia

NORCHEM Polyester LLC

Dzerzhinsk, Nizhny Novgorod region, Russia

Lanitex-Optima-7 LLC

Nikolskoe, Leningrad region, Russia

NORCHEM Major Groups of Products

FA ethoxylates (SintaNor TM)	Different ethoxylates of natural and synthetic fatty alcohols / Nonionic surfactants
Polyethylene glycols (NorPeg TM)	Molecular weight from 200 to 10 000, including Methoxy PEG
Diethanolamides (NORAMID TM)	Nonionic surfactants
Betaines (BETANOR TM)	Amphoteric surfactants
Sodium Laureth (Lauryl) Sulphates (SULFANOR TM)	Anionic surfactants
LABSA (LABSANOR TM)	Anionic surfactants

PARTNERSHIP WITH NORCHEM

- 30 years of production history of different types of surfactants and their adaptation to requirements of our customers;
- Partnership with the top suppliers of the domestic raw materials (SIBUR, LUKOIL, GASPROM) and the leading foreign manufacturers of chemical production (HUNTSMAN, SHELL, BASF, CLARIANT)
- Successful approval of our products in Russia and abroad allows to improve available compositions and technologies without any delay
- Continual extension of production facilities and development of new technologies
- Long-term cooperation with the leading multinational companies and research institutes
- Long and successful history of commercial developments of individual chemical compositions
- Certificates of the international companies (SEDEX, ECHA/REACH, RSPO) confirm high quality of our business and conformance to the requirements of the international and the Russian legislation, as well as compliance with standards of social and ethical responsibility
